

RPC-4200

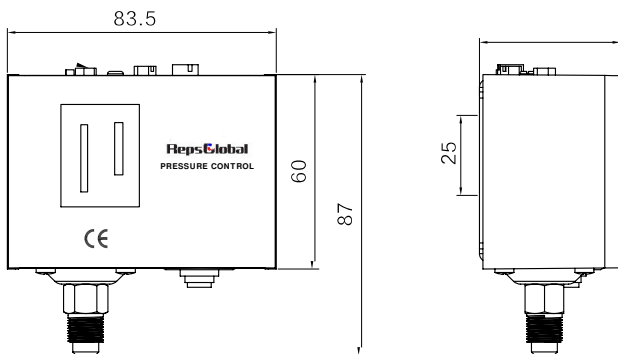

Water pump and Air Compressor Pressure Switch

RPC-4200 series pressure switches are suitable for plant in connection with liquid and gaseous media, used to control the pressure of compressor in refrigerant.

Electrical Function:

Rated V & A	125VAC	250VAC	24VDC
Full Load	20A	10A	8A
Locked Roter	72A	72A	64A
Temperature	-10~120°C		

Contact Function

Arrow means the direction of pressure increasing, M means hand reset
